

# WHY WINDOW NATION?

OVER 1,000,000 WINDOWS INSTALLED IN MORE THAN 125,000 HOMES

## ATTENTION TO DETAIL

- 50 Point Factory Inspection
- 20 Point Installation Review
- 96% Customer Satisfaction On Clean Up And Safety
- Custom Windows Measured 3 Times To Ensure Precision, Accuracy And A Tight Seal
- Over 200,000 Windows Installed Last Year With 99.5% Requiring No Follow Up Service

## QUALITY

Window Nation Uses America's Only Integrated System Of Window Installation Materials, Insulation, Sealant, And Caulking

- OSI Quad Foam
- OSI Quad Max Exterior Sealant
- Ultra-Premium High Performance Exterior Trim Coil
- Concrobium Mold Spray Treatment

## EXPERIENCE

- Installation Crew Leaders Average More Than 20,000 Windows & 16 Years Experience
- Service Technicians With An Average Of 10 Years' Experience
- Over 1 Million Windows Installed In Over 125,000 Homes
- 5th Largest Window Retailer In The Country, Ranked By Remodeling Magazine

## PRODUCT SELECTION

- Over 1,500 Custom Window & Door Style Combinations
- Name Brand Windows Available In Vinyl, Wood, And Fiberglass
- ENERGY STAR® Rated Products
- Windows Engineered For The Specific Climate We Live In

## TRUST

- "A" BBB Rating
- Angie's List Super Service Award Winner
- Limited Lifetime Warranty
- Exclusive 30-Day Price Protection Guarantee
- Licensed, Bonded, And Insured

# Unmatched Installation Experience

Great windows are only great if they're installed properly. It's critical that all the components that go into your new windows work together – insulation, caulking, sealants, and the window itself.

## It Starts with Quality Materials

### ① **QUAD Low-Expansion Foam**

- Single-component, minimal expansion and low-pressure polyurethane foam specifically designed for replacement window applications
- Ideal foam for sealing gaps, cracks, holes or voids around windows
- Closed-cell structure of this material provides an R-factor of 5 per inch of cured foam, making it an efficient method for stopping air and moisture infiltration

### ② **OSI® QUAD MAX® Window, Door and Siding Sealant**

- Unique multi-polymer formula specially engineered for premium replacement window installations
- Permanently flexible, will not crack or split even in extreme temperatures
- Water-resistant, all-weather applications, sticks to wet surfaces, no water washout
- Excellent UV resistance; will not crack or yellow

### ③ **High-Performance Trim Coil**

- Outperform PVC and Poly Coil finishes in the ASTM physical tests performance
- Features a finish with 8 mils of paint; that's twice the amount of paint used by most trim coil manufacturers
- Scratch resistant, stain inhibitors, better UV protection and harsh-climate coating
- Color selection - available in 30 unique color choices

### ④ **Concrobium Mold Control Spray**

- Innovative, market-leading product that effectively eliminates existing mold, prevents mold re-growth and eliminates musty odors with no harmful chemicals
- Effectively eliminates and prevents mold with no bleach, ammonia or VOCs
- Works as it dries by crushing the mold spores at the roots, leaving behind an invisible antimicrobial barrier to prevent future mold growth

Almond

## Grid Styles

Flat or contoured grids available.  
This is just a sampling, several grid patterns are available. Grid pattern availability and appearance is based on window size and shape.

UltraVision is also available in sliding windows, casement and awning windows, picture windows, and sliding doors.

Sliders come in 2- and 3-lite models. 3-lite sliders have a center fixed panel and are available in configurations of 1/3-1/3-1/3 and 1/4-1/2-1/4 .

Casements have a unique hinge design that allows for easy cleaning from the inside of your home.

Patio doors are built strong, including a heavy-duty metal reinforcement and an extruded aluminum screen door frame, while still remaining aesthetically appealing.

# Providing Structural Integrity and Pleasing Aesthetics More Affordably.

## 1. World-Class Assembly

Consistent fabrication quality from window to window. Fusion-welded sashes and frame are built squarely. Narrow manufacturing tolerances produce a tight window that best prevents air and water infiltration.

## 2. Wet Glazed Process

Secures glass in sash for a tight seal and delivers industry leading air infiltration rates.

## 3. H-LC40 Performance

High structural rated performance is achieved without the need for a sill rise extender, improving clear opening.

## 4. Wool-Pile Weatherstripping

Protects around the perimeter of all sashes to fight air infiltration.

## 5. Integral Ergonomic Lift Rails

Buyer beware of any window with snap-in lift rails that frequently snap out. Features comfortable ergonomic design.

## 6. Interlock System

Interlock at sash meeting rails creates a super-tight seal against air infiltration, providing security, comfort and well being.

## 7. Tilt-in Sash System

Dual operating tilt-in sashes make cleaning safe and easy from inside the home.

## 8. Dual Ventilator Locks

When deployed will limit sash travel, allowing for a secure way to keep windows open for ventilation.

## 9. Block and Tackle Balance System

The premier Block and Tackle Balance system ensures that lifting and closing will be smooth, reliable and quiet for years.

## 10. Balance Covers

Give the window a more attractive and finished appearance.

### Stainless Steel Intercept Spacer System

- Corrosion Resistant - Will never rust
- Temperature Resistant - Maintains a strong, secure seal through extreme temperature changes
- Strength and Durability - Stronger than tin spacers
- Warm-Edge Technology - Less conductive than typical aluminum box spacer for better energy efficiency
- Health Smart - Good for the environment
- Grid Alignment - Perfect, machine-generated alignment
- Aesthetic Appeal - Beautiful shine, the best-looking spacer in the industry

Vent Stop, when deployed, will limit sash travel to allow for ventilation.

Fusion welded corners prevent air from passing through and boost structural support.

Cam-Action Lock features durable zinc-cast design that pulls sashes and mechanical interlock tightly together to prevent air infiltration.

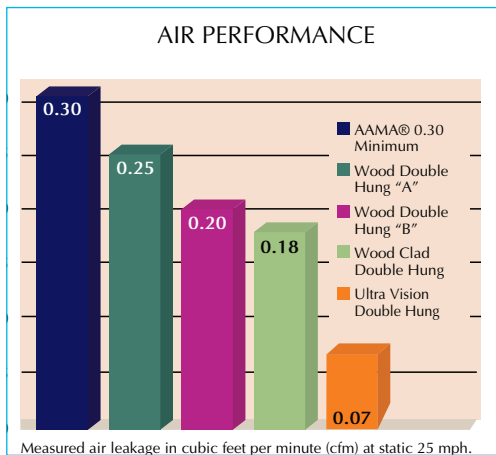

## Air Infiltration

Poorly designed windows don't have built-in airlocks, weatherstripping, and barriers necessary to keep air from forcing its way in, and leaky windows cause drafty homes. UltraVision windows greatly minimize air leaks with numerous air barriers designed into our advanced sill design.

Structural Data	
<b>Air:</b>	0.07 cfm at 25 mph*
<b>Water:</b>	6.06 psf**
<b>Structural:</b>	DP 40

\*Up to 77% better than industry minimum .30cfm  
 \*\*psf Pressure measurement = Pounds per square foot (Lbs./ft<sup>2</sup>)  
 (Test results vary by style and size of window. Size tested is 48x84)

## Glass

The UltraVision window comes standard with one of our double-pane, high-performance Low-E glass systems with the Stainless Steel Intercept spacer system, which will help to dramatically improve the efficiency of your new windows.

## Low-E

This window is ENERGY STAR qualified in the north.

NFRC WINDOW LABEL refers to the whole window performance, not just the insulated glass unit. Data shown for units without grids.

ENERGY STAR® Certified in Highlighted Regions	
	<b>VINYL DOUBLE HUNG</b> 3/4" Double Glazing, Low-E, Argon Fill, Intercept
ENERGY PERFORMANCE RATINGS	
U-Factor (U.S.I-P)	Solar Heat Gain Coefficient
<b>0.30</b>	<b>0.50</b>
ADDITIONAL PERFORMANCE RATINGS	
Visible Transmittance	Condensation Resistance
<b>0.60</b>	<b>55</b>

Manufacturer also states that these ratings conform to applicable NFRC procedures for determining whole window performance. NFRC ratings are determined by a third party of environmental conditions and a specific product area. NFRC does not warrant any product and does not warrant the suitability of any product for any specific use. Contact manufacturer's Website for other product performance information.

## Windows Made in the USA

UltraVision Windows are manufactured in the USA and are designed and engineered specifically for our challenging Midwest and East Coast climates. This weather is unlike any other in the country due to its hot, humid summers and brutally cold and snowy winters. Why purchase a window made for the entire country's average weather when you can invest in one designed for your unique climate? Other benefits of products made in the USA include:

- No shipping costs
- Quicker turnaround
- Supports economy
- Windows specifically designed for our challenging climate
- Quicker service for parts

### A Lifetime of Protection

All Window Nation Products are manufactured by the recognized leader in product innovation with uncompromising quality control. From the day your windows are installed to the day you sell your home, our comprehensive non-prorated lifetime warranty is your assurance that your investment is protected. Additionally, your warranty is completely transferable to the next homeowner. Contact a Window Nation consultant for more information and a copy of the warranty.

### Reputation Built on Decades of Experience

Window Nation, Inc. was started by the Magden brothers with the mission of offering an unsurpassed selection of premium name-brand products installed by highly skilled licensed professionals and guaranteed by the most comprehensive warranty in the industry. Window Nation is consistently listed nationally as a top 20 window retailer, offers an award-winning customer service experience, maintains the grades via 3rd party review sites, and continues to deliver a 96% customer satisfaction.
